

Sebastian Ovelar Anderson

AI Engineer

Copenhagen, Denmark, Nationality: Spanish | +4591671660 | sovela25@student.aau.dk | <https://www.sebastianderson.com/>

 <https://es.linkedin.com/in/sebastian-anderson-3a0610170>

Profile

Creative and result-driven student pursuing a Master in Computer Engineering, specialized on data analysis and machine learning. With extensive experienced in developing Python-based predictive models and interactive dashboards to automate business insight. Skilled in troubleshooting complex technical systems and collaborating with stakeholders to improve software quality. As a co-worker, I am collaborative, independent learner and thrive in a innovative and tech-forward work environment.

Work Experience

Technical Support Engineer, Google Workspace

April 2022 - May 2024

Webhelp - Barcelona, Spain

- Resolved 3,000+ technical issues on real time communications systems and advanced Chrome and device management solutions with a consistent excellent quality (+95%).
- Created detailed analysis of bugs and behaviours collaborating with the Product Team to help in improvement of Google systems.
- Engage in extensive analysis of complex network architectures, log files and different testing environments when troubleshooting for enterprise with millions of users.

Data Analyst & Systems Engineer Intern

September 2021 - April 2022

Food-Haven - Barcelona, Spain

- Developed Python models to automate trend forecasting, increasing operational accuracy by 25% and providing senior management with data-driven decision support.
- Engineered and maintained interactive Power BI dashboards to visualize processed data and support strategic decisions by the marketing team and the CEO.
- Managed systems like admin tools, CCTV network and ETL processes, for operational monitoring and security insights across a multi-site business.

Education

Master of Science (M.Sc.), Computer Engineering

August 2025 - June 2027

Aalborg University - Copenhagen, Denmark

Core courses in Cloud Technologies, Secure Software Design and Artificial Intelligence.

Bachelor's Degree in Audiovisual Systems Engineering

September 2017 - July 2022

Pompeu Fabra University - Barcelona, Spain

Focus on Multimedia Systems, Signal Processing, Networks and Machine Learning

Core Competencies

Communication Skills

- **Technical Communication & Stakeholder Reporting:** Proven ability to translate complex technical issues into clear, actionable insights for both engineering teams and business partners.
- **Leadership & Teamwork:** Mentored junior support agents on complex Google and collaborated with product and engineering teams to troubleshoot and escalate platform issues.
- **Analytical Problem-Solving & Root Cause Analysis:** Highly skilled at diagnosing complex system issues, analyzing logs, and identifying the root cause of software problems.

Development & Engineering

- **Programing Languages:** Python, Java, C/C++, DAX.
- **AI / Machine Learning:** LLMs, prompt engineering, applied machine learning (scikit-learn, TensorFlow)
- **Systems & Tools:** Google Workspace Admin (user & access management), Microsoft 365, data handling, system troubleshooting.

Projects

Predictive Modeling for Music Performance (Final Degree Project)

Pompeu Fabra University - Grade: 9.5/10

- Engineered and trained multiple machine learning models using Python and TensorFlow to forecast expressive variations in musical performance of cellist.
- Contributed original research to the field of AI-driven music analysis through detailed experimentation. (upf.edu)

Certifications

LLMs Mastery: Complete Guide to Transformers & Generative AI, Udemy
